Used Peugeot Boxer Welfare Van

POA

2019 (19)

This excellent low mileage 2019 Peugeot Boxer Welfare Van is now available. Built back in 2020 on the well?respected Stellantis Peugeot Boxer platform and offering a great opportunity to secure a high?quality FWD welfare unit. Carry up to 7 passengers, benefit from dedicated wash and mess facilities, and enjoy the convenience of an onboard WC by choosing this vehicle. Welfare Vans are increasingly being used beyond the civil engineering and construction sectors as versatile support vehicles. Emergency Services, Charities and other organisations are adapting to the need for safe respite areas for frontline workers and service users, suitable for deployment at multiple events or incidents.

Minibus Description

The 2019 (19) Peugeot Boxer FWD Welfare Van offered a dependable and well?equipped solution for teams working in demanding or remote environments. With just 22,072 miles, it represented a low?mileage, well?maintained option for organisations requiring a practical welfare facility on wheels.

Designed to support construction, utilities, highways, rail and other field?based operations, the welfare compartment provided staff with a safe, comfortable space to take breaks and manage essential welfare needs throughout the working day. Typical features included fixed seating, a canteen?style area, heating, hand?wash facilities, secure storage and a private toilet compartment—each arranged to maximise usability and ensure crews had reliable on?site support wherever the job took them.

The front?wheel?drive layout delivered predictable handling and strong traction, particularly useful when operating on uneven surfaces or in challenging weather. Its efficient diesel engine met modern emissions standards and offered a solid balance of performance and running?cost control.

Up front, the Boxer’s cabin provided a practical and ergonomic workspace for the driver and passengers. Supportive seating, intuitive controls and a robust commercial?grade design helped reduce fatigue on longer journeys between sites.
